Dear Bill:

The success of commercial real estate is closely tied to my goals of encouraging new companies to move to Florida while assisting our homegrown companies to expand. That's why I was so impressed to learn that you have been named Land Realtor® of America for 2003. What an honor you bring home to Florida with this award.

As a dedicated professional, you set a high standard by sharing your roadmap to success in site selection courses all across North America. You are a role model for the next generation of commercial real estate professionals and the envy of your peers.

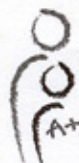

When I named Lynda to the Florida Women's Hall of Fame, I mentioned that these women were all proud to be part of wonderful families. I join Lynda and your many family members and friends who congratulate you for earning the distinguished title of Land Realtor® of America.

All of Florida shares in celebrating the accomplishments that earned you this prestigious award. Best wishes for continued success.

Sincerely,

A large, stylized handwritten signature of Jeb Bush in black ink.
