“WHAT GOES AROUND COMES AROUND”!

More than three decades ago, an ambitious, eager and highly motivated young high school student came to me, seeking advice on colleges and future lifestyles.

I believe I showed you where there were broader horizons, greater challenges and infinite rewards in the building and land development industries as opposed to what you might discover in the teaching profession.

Now, along with your endless accolades, you have brought your God-given teaching and speaking skills to the RLI Land Universities. It is utterly amazing how you also found the time and energy to become one of the top Land Realtors in America.

In my advanced years, I am pleased to now be seeking your advice, expertise and worldly knowledge, as I dispose of my remaining apartment complexes in Ohio.

This “Old Coach” has called on you, Bill, “the star quarterback”, to help me finalize my life’s work.

Bill, I could not be more proud of you if he were my own son.

*Very Sincerely
Gally*
